

## Painkiller

Aaron Espe/Jessica Campbell

### Verse:

I tried to medicate  
I tried so hard to meditate  
Laid in the bed all night & day  
Don't know what else I can do for this heart

Then, I found a remedy  
Or how should I say it, it found me  
Walked right up with a voice so sweet  
Said you don't know how pretty you are  
Girl, you don't know how pretty you are

### Pre-Ch:

In that moment I felt my symptoms fade...

### Chorus:

You're my painkiller  
You're my steady peace of mind  
My little pill, my heartbreak healer  
You're my painkiller

### Verse:

Oh yeah it felt so good  
You fixed me up like a doctor would  
Everything feels just like it should  
and I can't wait to see you tonight  
Just can't wait to see you tonight

### Pre-Ch:

When I'm with you my symptoms fade...

Bridge: Oh oh oh oh oh
