

Something About Trains  
Doug Waterman/Aaron Espe  
Copyright 2013

There's just somethin' about trains  
That makes me wanna run away  
My granddaddy used to say  
Must be something in our veins  
Yeah he knew a thing or two  
There's just something about trains

Sometimes I got to get off the ground  
Get lost to get found and be free  
Sometimes my mind goes wild  
if I don't pick up my feet

There's just something about the sea  
You can't solve its mystery  
I wanna swim down where it's deep  
And cure this curiosity  
All I know is I need to go  
There's just something about the sea

Sometimes I got to get off the ground  
Get lost to get found and be free  
Sometimes my mind goes wild  
if I don't pick up my feet

Last night I went out for a drive  
A song came on that spoke my life  
I had to pull off to the side  
I'm not someone who usually cries  
But ya never know what the road holds  
Last night I went out for a drive

Sometimes I got to get off the ground  
Get lost to get found and be free  
Sometimes my mind goes wild  
if I don't pick up my feet

There's just something about trains  
That makes me wanna run away
