

"Time"

Jessica Campbell/Ryan Horne

Copyright 2013

You are the calm

I am the storm

What would a rose be without a thorn

But it's alright we can make it work

You are the tee shirt

I am the stain

You're stuck with me til the end of the day

But it's alright, we have each other

But it's alright, there is no other

If you wanna climb high upon this hill

We can make a life long legacy, Ooooh

With time, time, time time, makes us stronger

Forever yours, forever mine

With time on our side

It's on our side

You are the window

I am the stone

Sometimes we just don't get along

But it's alright, that's just part of living

You are the circle

I am the square

Two different socks still make a pair

But it's alright, there's giving & there's taking

And it's alright, it's better when we're changing

If you wanna climb high upon this hill

We can make a life long legacy, Ooooh

With time, time, time time, makes us stronger

Forever yours, forever mine

With time on our side

It's on our side
